

内外雜誌主要題目

朝鮮鑛業會誌 第三卷第一號(一月一日)

戦後は石油の時代なり

小藤文次郎

朝鮮に於ける石炭問題

川崎繁太郎

日本鑛業會誌 第四百十八號 大正八年十二月

炭塵の高温酸化

佐野秀之助

第四百十九號(大正九年一月二十二日)

伊賀國の亞炭と粘土

巨智部忠承

工業雜誌 第六百六十七號(大正九年一月五日)

第六百六十九號(九年二月五日)

内藤燃料研究所に於ける研究

内藤游

造船業の將來

寺野精一

製鐵研究會記事 第五十四號(大正九年一月)

鋼材の熱間抗張力試験に就て

奥隆富

×セフィールド工具鋼の話

水曜會誌 第三卷第五號(大正八年十二月三十日)

三元系合金の平衡圖に就て

西村秀雄

炭素酸化物と鐵及其酸化物の間に於ける化學反應に就て

松原厚

Foundry Trade Journal: Vol. 21, No. 215.

Cast Iron under heat influences.

p. 804.

Investigatives into the Hardness of Cast Iron at diffe-

rent temperatures.

p. 811.

Steel Turnings for Blast Furnaces.

p. 813.

Castings used in Ship Construction.

p. 815.

Foundry Trade Journal: Vol. 21, No. 216.

Castings used in Ship Construction.

p. 888.

Analyst: Vol. 44, No. 525. (Dec.)

The Analysis of Brazilian Zirconium ore.

By A. H. Powell and W. R. Schoeller.

p. 397.

Foundry: Vol. 47, No. 335. (Nov. 15)

Pipe Molds made from Rotating Patterns.

p. 810.

Equipment and methods of Tinning.

By E. P. Later.

p. 217.

Better Steel Casting are Required.

By H. A. Neel.

p. 824.

Study Common Aluminum Alloys.

By Robert J. Anderson.

p. 827.

Casting for Ship Construction.

By Ben Shaw.

p. 832.

Effects of the Contraction of Iron.

By Ernest Schwartz.

p. 836.

Foundry: Vol. 47, No. 336. (Dec. 1)

Electric Melting Shows Economy.

p. 845.

Electric steel Refined in the Ladle.

p. 850.

Factors in Choosing Molding Sands.

By B. G. H. Boswell.

p. 851.

Speed Marks Auto Parts Molding.

- By D. M. Avey. p. 852.
Castings from the Electric furnace.
- By R. C. Gosrow. p. 858.
Useful Hints on Electric welding.
- By H. I. Unland. p. 863.
Casting for Ship Construction. —XV. p. 870.
- Foundry: Vol. 47, No. 337.** (Dec. 15)
Iron Foundry Assists Pattern Shop.
- By H. L. Diller. p. 887.
Points merits of Electric furnace.
- By W. E. Moore. p. 892.
Castings for Ship Construction. —XVI.
- By Ben Shaw. p. 902.
Malleable strong in thick Sections. p. 906.
Welding large Mill Engine Cylinders.
- By L. M. Malcher. p. 908.
- Foundry: Vol. 48, No. 338.** (Jan. 1. 1920)
Adapting a skip hoist to the Cupola. p. 6.
Casts large Tonnage of Aluminium. p. 17.
Castings for Ship Construction. —XVII.
- By Ben Shaw. p. 26.
Gas forms efficient cone oven Full.
- By W. A. Ehlers. p. 33.
- Foundry: Vol. 48, No. 339.** (Jan. 15)
Making Rubber Mold Castings.
- By Pat Droyer. p. 43.
- Conveyors speed Foundry's work. p. 51.
By H. E. Diller.
- Making Mangnese steel by the open hearts process. p. 63.
By E. L. Shane.
- Melting Brass in a Gray Iron Shop. p. 67.
By R. R. Clarke.
- Casting for Ship Construction. —XVIII. p. 71.
By Ben Shaw.
- The Blast furnace and steel Plant: Vol. 7, No. 11.**
(Nov.)
- Allis-Chalmers heavy Forging Plant. p. 533.
Heating and Annealing furnace.
- By W. Trinks. p. 539.
Suggestions for Tar Extractor Improvement.
- By George B. Cramp. p. 543.
Electrically Driven Reversing Mills.
- By Wilfred Sykes. p. 545.
Steel furnace temperature Measurement.
- By George K. Burgess. p. 550.
Electric Open hearts and Bessemer steel Temperature Measurement. p. 552.
- By F. G. Bash.
- Pyrometry in the Blast furnace Plant. p. 556.
By P. H. Rayster.
- Forging temperature and sets of heating and cooling of large Ingots. p. 560.

Power Piping Requirements in Modlen mills. p. 566.
Economical operation of mill Boilers.

By W. E. Snyder. p. 568.

The Blast furnace and steel Plant: Vol. 7, No. 12.

(Dec.)

Work of United States of Bureau of Mines.

By Van H. Manning. p. 581.

Heating furnace and annealing furnaces. —XII.

By W. Trinks. p. 583.

Effect of Sulphur on steel Casting.

By A. E. While. p. 586.

Brittleness in Nickel chrome steel.

By F. Rodgers. p. 587.

X-Ray applied to Examination of Metals.

By W. E. Ruder. p. 588.

Notes on the Acid Electric furnace Process.

By L. B. Lindemuth. p. 595.

Measuring Temperature of Molten steel.

By F. W. Brooke. p. 597.

Manufacture of Light-Wall steel Tubing.

By H. J. French. p. 601.

Future Improvements in open hearth.

By Henry M. Howe. p. 604.

Saving Coal in Steel and Tin plate work.

By J. E. Stewart. p. 607.

Economical operation of Mill Boilers.

By W. E. Snyder. p. 608.

Blast Furnace and steel Plant: Vol. 8, No. 1. (Jan. /20)

Electricity in steel Industry 1919.

By G. E. Stoltz. p. 4.

Byproduct coke oven Industry 1919.

By C. I. Ramsburg. p. 17.

Blast furnace development 1919. p. 26.

American Engineers Design New Blast furnace plant
for Far East. p. 28.

English Build Large Gas Blowing Engines. p. 30.

Blast Furnace Plants Install Electrical Precipitation
for cleaning Gas. p. 32.

By N. H. Gellert.

Remodeling Furnace Plants for Economy. p. 35.

By F. H. Willcox.

Brachburn steel Co; increases Capacity for making and

Rolling High Grade steel. p. 38.

Electric Furnace Development During 1919. p. 45.

1919 Open hearth Technical Development. p. 47.

By Fred Crabtree.

The Electric furnace and its power supply. p. 48.

By E. A. Willcox.

Metallurgical Progress in Steel Industry. p. 56.

Electric vs. Open hearth Furnace Practice. p. 62.

Review of steam Power Plant Improvement. p. 68.

Two High Reversing Universal Plate mill. p. 74.

- Blooming and Continuous Mills at Sharon. p. 76.
- Research Bureau studies Practical Rolling Mill Technical Problem. p. 84.
- By W. B. Skinkle.
- Development of Modern Steel rolling. p. 91.
- By W. H. Melaney.
- Plate Mill Draft and Peak load relation. p. 94.
- By J. T. Eaton.
- Electrical equipment for reversing Mill. p. 96.
- Years Progress in Steel Casting Industry. p. 98.
- By R. A. Ball.
- Designing a Model Steel Foundry. p. 100.
- By O. L. Markt.
- Alloy steel and Heat Treatment in the Production of Special Forgings. p. 106.
- Colorizing Process to Prevent oxidation. p. 109.
- By G. F. Burger.
- Technical advances in Forging During 1919. p. 111.
- By Henry Freeman.
- Heat Treating Methods improved in 1919. p. 113.
- By B. F. Weston.
- Heating furnace and annealing furnace. p. 118.
- By W. Trinks.
- Continuous Sheet Galvanizing Furnace. p. 124.
- By A. E. Blake.
- Iron and Coal Trade Review: Vol. 99, No. 2597.**
- (Nov. 7.)
- The Development and use of High-Power Gas Engine. p. 589.
- Iron ore Reserves in Cumberland and Lancashire. p. 596.
- Design of Heating Furnace. p. 602.
- Potash from Blast furnace Dust. p. 603.
- Iron and Coal Trade Review: Vol. 99, No. 2598.**
- (Nov. 14)
- Development and use of High-Power Gas Engine. p. 623.
- Valve Failure and valve steel in Internal combustion Engines. By Delie Aitchison. p. 626.
- Iron and Coal Trade Review: Vol. 99, No. 2599.**
- (Nov. 21)
- Development and use of High Power Gas Engine. p. 659.
- Iron and Coal Trade Review: Vol. 99, No. 2700.**
- (Nov. 28)
- Future Development in Puddled Iron Manufacture. p. 691.
- By J. E. Fletcher.
- American Iron Ore Unlader. p. 701.
- Pulverized coal for stationary Boiler. p. 705.
- Iron and Coal Trade Review: Vol. 99, No. 2301.**
- (Dec. 5)
- Moisture in Blast furnace coke. p. 734.
- Air craft steel. p. 739.
