Technical Papers

A Study of the Reduction of NO_x in the Waste Gas from Sinter Plant G. SUZUKI, R. ANDO, H. YOSHIKOSHI, Y. YAMAOKA, and S. NAGAOKA...	2775
Equilibrium between Cerium and Sulphur in Liquid Iron A. EJIMA, K. SUZUKI, N. HARADA, and K. SANBONGI...	2784
Relation between the Transport or Friction Coefficients of Elementary Ions and the Interdiffusion Coefficients of Neutral Oxide Compoments in Multicomponent slags K. GOTO, H. SCHMALZRIED, and K. NAGATA...	2794
Deoxidation Control in Continuously Cast Steel Slabs for ERW Pipe Use K. SUZUKI, A. EJIMA, H. NAKAMURA, T. MORI, Y. MISHIRO, and Y. IIDA...	2805
The Effect of Molybdenum and Heat Treatments on Creep Properties of 15Cr-14Ni Heat Resisting Steels T. YAMADA and T. FUJITA...	2819
Effects of Small Amount of Vanadium and Niobium on Microstructure and Creep Rupture Strength of 12 percent Chromium Heat Resisting Steel N. TAKAHASHI and T. FUJITA...	2829
The Effect of Mn, Cr, and Ni Additions on the Structure, Strength, and Toughness of Tempered Martensite and Bainite in Low C Steels A. KAMADA, N. KOSHIZUKA, and T. FUNAKOSHI...	2839
Application of Cold Nitric Acid and Cold Nitric Acid-Alcohol Methods to Analysis of Nonmetallic Inclusions in Steel K. KAWAMURA, S. WATANABE, and M. YAMADA...	2852

Technical Report

On Equipments and Operation of Continuous Annealing and Processing Line "CAPL" for Manufacturing Cold Rolled Steel Sheets K. TODA, T. HARADA, N. ANDO, K. OZAKI, R. KATSUTANI, T. NISHIMURA, and M. USUDA...	2863
---	------

Special Lecture

Ideal Status of Advancement and Reality of Promising Iron and Steel K. SANO...	2877
Progress of Iron and Steelmaking Technology and Modernization of Integrated Works in Japan..... R. HIRATA...	2882

Technical Review

Activity of Nitrogen in Austenitic Steels..... M. KIKUCHI and R. TANAKA...	2892
--	------

Abstracts.....	2904,	Library News.....	2909,	Notice to Members.....	N165
Proceedings of the Institute.....	N170
