

"Tetsu-to-Hagané"

Vol. 61, No.15, December, 1975

Contents

Foreword

Role of the Iron and Steel Institute with Respect to Research and Development	T. ARAKI...3039
---	-----------------

Technical Papers

A Study of the Relation between Reduction and Carburization in the Reduction of Iron Oxide	H. REE...3041
Thermodynamic Properties of the Fe-V, Fe-V-Cr Alloys at 1600°C by Mass-Spectrometry.....	T. FURUKAWA and E. KATO...3050
Thermodynamic Properties of liquid Fe-Ti Alloys by Mass-Spectrometry.....	T. FURUKAWA and E. KATO...3060
A Mathematical Model of Solidification Based on the Fe-C System Equilibrium Phase Diagram.....	K. WATANABE...3069
Formation of Micro Solidification Structures of Steels	T. OHASHI and W. A. FISCHER...3077
Cold-Rolling and Annealing Textures in Fe-C Alloys	S. NOMURA, T. YUTORI, and T. FUKUTSUKA...3092
Thermo-Mechanical Treatments of 18Cr-12Ni Steel Containing Coarse Grain-Boundary Precipitates.....	I. MUTO and M. YAMAZAKI...3106
Effect of Alloying Elements on Toughness of Bainite in Medium Carbon Low Alloy Steels.....	H. NAKAJIMA and T. ARAKI...3119
On the Inverse Quench-Hardening of Steel.....	N. SHIMIZU and I. TAMURA...3129
Relation between Wear of Iron and Steel and Sliding Surface Temperature.....	M. KAWAMOTO, S. SHINTANI, and K. OKABAYASHI...3139

Technical Reports

Outline and Operation of 50t Elo-Vac Unit at Steel Tube Works of Sumitomo Metal Industries, Ltd	Y. KOTANI, T. IKEDA, K. ISHIHARA, and T. SAKANE...3149
---	--

Special Lecture

A Proposal for a Future Steel Plant and Research Program	S. EKETORP...3156
--	-------------------

Report

Report of the 5th Japan-USSR Joint Symposium on Physical Chemistry of Metallurgical Processes	
The Scientific Delegation of the Iron and Steel Institute of Japan to USSR.....	3167

Abstracts.....	3189	Library News.....	3196	Notice to Members.....	N185
Proceedings of the Institute.....	N193	Index to Vol. 61, 1975.....	Last Pages		

Overseas membership: Annual charges: ¥6000 (incl. postage) Initiation fee: ¥600
