

"Tetsu-to-Hagané"

Vol. 64 No. 2, February, 1978

Contents

Foreword

Technological Development as a Key to Japan's Future.....	T. FUJIWARA...	185
---	----------------	-----

Technical Papers

The Effective Diffusion Coefficient of CO ₂ in the Solution Loss of Coke	S. KOBAYASHI and Y. OMORI...	187
Activities of Manganese and Silicon in δ -Iron at Solid-Liquid Equilibrium Temperature.....	T. FUJISAWA, K. IMAOKA, and H. SAKAO...	196
Thermodynamic Activities in Fe-Mn Alloys at 1833K.....	M. ARITA and G. St. PIERRE...	206
A Consideration on the Interfacial Tension between Metal and Slag with Iron Transfer through the Interface	K. MUKAI, H. FURUKAWA, and T. TSUCHIKAWA...	215
Measurement on the Electrical Conductivity of ESR Fluxes Containing Fluoride by Four Electrodes Method with Alternating Current	K. OGINO, H. HASHIMOTO, and S. HARA...	225
Study of the Conduction Mechanism of Molten Fluxes for Electroslag Remelting.....	K. OGINO, S. HARA, and H. HASHIMOTO...	232
Prevention of Hydration of Lime by Partial Carbonation	S. KIMURA, M. FURUYA, H. KATAYAMA, H. KAJIOKA, and A. TANAKA...	240
Calculation of Spread, Elongation, Effective Roll Radius, Roll Force and Torque When Rolling in the Square-Diamond-, Square-Oval and Round-Oval Passes	Y. SAITÔ, Y. TAKAHASHI, and K. KATO...	250
Plastic Deformation of Iron Single Crystals under Simple Shear.....	A. MATSUDA...	260
Fatigue Properties of Carbon Steels (Containing 0.13-0.41%C) with Various Heat Treated Structures.....	S. HORIBE, R. SAGAWA, T. FUJITA, and T. ARAKI...	268
Fatigue Behaviour of Metastable and Stable Austenitic Steels	S. HORIBE, Y. SEKI, T. FUJITA, and T. ARAKI...	278
Influence of Metallurgical Factors on Hydrogen Damage of Austenitic Stainless Steel.....	S. NOMURA and M. HASEGAWA...	288
Determination of Nitrogen Oxides of Low Concentration in Exhaust Gas By Improved Phenol Disulfonic Acid Method	T. HATA, Y. KONO, and Y. BANNO...	297

Technical Reports

Improvement of High Temperature Strength of 1Cr-1Mo-1/4V Steel for Boiler Main Steam Pipe.....	K. TANOSAKI...	303
High Temperature Properties and Weldability of 1Cr-1Mo-1/4V-B Heat Resistant Steel	K. TANOSAKI...	310

Technical Review

Recent Development and Theory of Lubrication in Cold Sheet Rolling.....	A. AZUSHIMA...	317
---	----------------	-----

Commentary

Current Topics on the Elevated Temperature Design Code — On the Interaction between Creep and Fatigue —	M. OHNAMI and M. SAKANE...	331
---	----------------------------	-----

Report of the Joint Research Society of ISIJ

On the 5th and 6th Comparative High Temperature Tensile Testings	I. TAMURA...	338
--	--------------	-----

Report

Report of SCANINJECT.....	K. MORI...	348
Sheffield International Conference on Solidification and Casting.....	I. TAKAHASHI...	350

Abstracts.....	353, Library News.....	360, Notice to Member.....	N19
Proceedings of the Institute.....	N27		

Overseas membership: Annual charge: ¥6000 (incl. postage), Initiation fee; ¥600
