

"Tetsu-to-Hagané"

Vol. 64 No. 7, June, 1978

Contents

Technical Papers

- Study of Drop Weight Test Procedure for Evaluation of Fracture Toughness of SteelsK. OHNISHI, H. TSUKADA, K. SUZUKI, M. MURAI, and Y. TANAKA... 831
- Fracture Toughness of Temper-Embrittled Medium Carbon Steels S. FUKUI and N. UEHARA... 841
- Relation between Fracture Behavior of Ferritic Pearlitic Steels and Acoustic EmissionT. NAKAMURA, Y. FUKUZAWA, Y. RO, H. HATANO, and Y. SENSUI... 851
- Fracture Characteristics Evaluation by Charpy Impact Bending Test S. NUNOMURA and M. NAKASHIRO... 860
- Fracture Toughness of Turbine Rotor Material around Room Temperature and Validity Criterion for Plane Strain Fracture Toughness H. KIKUCHI, A. SUZUKI, M. AOKI, and K. IKEDA... 870
- Evaluation of J_{IC} Fracture Toughness of Nuclear Reactor Pressure Vessel Steels by Three-Point Bend Specimens T. KODAIRA, N. NAKAJIMA, and M. MATSUMOTO... 877
- Evaluation on Fracture Toughness of Structural Steels through J Integral Y. NAKANO... 891
- Hydrogen Embrittlement of High Strength Steels in High Pressure Hydrogen Gas at Ambient TemperatureS. HINOTANI, F. TERASAKI, and K. TAKAHASHI... 899

Lectures

- Factors Controlling Fracture ToughnessH. MIMURA... 906
- Mechanical Aspects of Fracture Toughness EvaluationF. KOSHIGA... 917

Technical Review

- Fractography and Fracture Mechanics of Fracture of SteelsR. KOTERAZAWA... 925

Technical Papers

- A Study of Shear Crack Propagation in Spring-loaded DCB Testing Y. KURITA, T. AKIYAMA, T. FUJITA, and F. KOSHIGA... 937
- Laboratory Test for Unstable Ductile Fracture M. OGASAWARA, T. TAMANO, H. MIMURA, S. YANAGIMOTO, and Y. KURIYAMA... 947

Technical Review

- On the Propagating Shear Fracture in Large Diameter Gas PipelineT. TANAKA, M. FUKUDA, I. TAKEUCHI, and T. KOGA... 958

Technical Report

- Effect of Post-weld Heat Treatment on the Fracture Mechanics Behaviour for Electroslag Welding Joints of SM41B Heavy Thickness Plate K. MATSUMOTO and K. TAKAI... 969

Technical Paper

- Fracture Toughness in Heat-Affected Zone Subjected to Stress Relief AnnealingS. KANAZAWA, H. MIMURA, K. YAMATO, M. SHIBASAKI, and T. TAKEDA... 979

Lecture

Evaluation Methods of Fracture Toughness of Structural Steels and
Significance of Defects in Welded StructuresT. KANAZAWA... 990

Technical Reviews

Application of the 80 kg/mm² Class High Strength Steel to Welded Structure
—Safety Analysis of the Spherical Storage Tanks—
.....Y. SAIGA, K. SUZUKI, M. FUKAGAWA, T. KOHNO, and K. SAKAI...1001
Fracture and Its Analysis —Case Studies on Rotating Mass and
Pressure Vessels—J. WATANABE...1020

Technical Papers

Strength and Low Temperature Toughness of Fe-13%Ni-Mo Alloys
..... K. ISHIKAWA, N. MARUYAMA, and K. TSUYA...1031
Fracture Toughness of Fe-13%Ni-3%Mo-0.2%Ti Alloy at Cryogenic
TemperatureK. ISHIKAWA, K. TSUYA, and N. MARUYAMA...1038
Plane Strain Fracture Toughness and Stretched Zone of an 18%Ni Maraging
Steel with Various Prior-Austenite Grain Sizes
.....K. HOSOMI, Y. ASHIDA, H. HATO, and K. ISHIHARA...1047
Effects of Aging Conditions and Strain Rate on Elongation of 245 kg/mm²
Grade and 210 kg/mm² Grade Maraging Steels
..... K. SOENO, T. KURODA, and K. TAGUCHI...1056
Relation of Processing Variables in Thermomechanical Treatment to
Strength, Ductility and Toughness of 280 kg/mm² Grade Maraging Steel
..... Y. KAWABE, S. MUNEKI, and K. NAKAZAWA...1063

Technical Report

Influences of Strength and Non-Metallic Inclusion on the Fatigue Crack
Propagation Characteristics in Structural Steels
..... K. KOBAYASHI, A. NARUMOTO, M. TANAKA, and T. FUNAKOSHI...1072

Technical Paper

Initiation and Propagation of Microcracks in SNCM8 Steel Fatigued under
Combined Axial Loading and Torsion
..... K. TANAKA, S. MATSUOKA, and K. MIYAZAWA...1082

Abstracts.....1094, JISTIC News.....1099, Notice to MemberN79
Proceedings of the Institute.....N95

Overseas membership: Annual charge: ¥6000 (incl. postage), Initiation fee; ¥ 600
