

Porosity Annihilation Process and Its Influences on Ductility of Rolled Steel Plates.....	H. TAGAWA, S. TSUYAMA and J. TANAKA...123
Application of UV-curing Process to Steel Sheet with Lubricating Film	T. TAIRA, Y. SINDO and K. FUJIWARA...130
Adhesion Durability in Composite-type Vibration-damping Steel Sheets	M. SHINOZAKI, Y. MATSUMOTO, K. TSUNOYAMA and S. TSUGAWA...137
The Effect of Transformation Latent Heat on the Progress of Phase Transformation during Continuous Cooling of Steel	H. OHTSUKA, M. UMEMOTO and I. TAMURA...144
Calculation of Fe-C-S Ternary Phase Diagram	H. OHTANI and T. NISHIZAWA...152
Temperature Rise and Deformation Behaviors of Materials during Fatigue Tests at Cryogenic Temperatures.....	T. OGATA, K. ISHIKAWA, K. NAGAI and T. YURI...160
Effect of Mo Content and Heat Treatment Conditions on Hydrogen Attack of Steel for Pressure Vessel.....	H. OKADA...167
Effect of Postweld Heat Treatment on Critical Temperature in Hydrogen Attack of 1/2 Mo Steel Welds.....	R. CHIBA, K. OHNISHI, K. ISHII and K. MAEDA...175
Effect of Carbon on High Temperature Creep Property of a Ni-20Cr Alloy	J. ZHANG, M. TAKEYAMA, T. MATSUO, M. KIKUCHI and R. TANAKA...183
The Relationship between Internal Cracking and the Austenite Grain Boundary Segregation of Sulfur Atoms in 9% Ni Cast Steels	J. MURAYAMA, H. OHTANI and Y. OHMORI...191
Effect of Si on the Strength and the Toughness of Boron Treated Cr-Mo-Nb Steels	T. TSUMURA, Y. OKADA and H. OHTANI...199
Mechanical Properties of Cast Stainless Steels at Low Temperatures	T. OGATA and K. ISHIKAWA...207

Letters

What I Think about the Research in the Steel Industry	A. SAKAKURA...215
Impressions during the Stay at UCB.....	M. OHMURA...220

Reports

A Report on "The Gordon Research Conference on Plasma Chemistry"	T. YOSHIDA...217
Report on 2nd International Conference on Numerical Methods in Industrial Forming Processes	K. MORI...219
Institute Announcement and Reports-The 112nd ISIJ Meeting	224

Abstracts	222,	The Editor's Postscript	232
		Notice to Members	N 1
