

"Tetsu-to-Hagané" Vol. 73 No. 9, July, 1987

Contents

Commentaries

Selective Refining of Metals by Chlorine Gas	K. NAGATA... 1077
The Present Situation of the Mechanics of Granular Materials	T. NAGAO... 1082
Research and Development of Residual Life Prediction Technique for High Temperature Structural Materials	N. SHINYA... 1089
Microwave Application on Measurement and Control	C. SHIBATA and R. HORIE... 1096

Report on the Research Committee of ISIJ

Revision of the Methods for Chemical Analysis of Fluorspar for Iron and Steel Making (JIS M 8514-1976)	H. IWATA... 1103
---	------------------

Technical Papers and Technical Reports

Manganese Distribution between Lime- or Soda-based Slags and Liquid Iron Containing High Carbon	N. SHINOZAKI, S. SAKAMOTO, K. MORI and Y. KAWAI... 1109
The Mechanism of Post Combustion in Converter	M. HIRAI, R. TSUJINO, T. MUKAI, T. HARADA and M. OMORI... 1117
Influence of Ingot Shape and Chemical Composition on the Inverse-V Segregation in Killed Steel Ingots	Y. TSUCHIDA, M. NAKADA, Y. KUNISADA and T. TESHIMA... 1125
Wear Rate of Fused Silica Submerged Nozzle for Continuous Casting	K. ARATANI and T. KAWAKAMI... 1133
Production of Rapidly Solidified Fe-C-Si Alloy Powder by the Rotating-Water- Atomization Process and Its Structure	I. YAMAUCHI, Y. NOMURA, I. OHNAKA and Y. MATSUMOTO... 1138
Deformation and Recrystallization Behavior of Austenitic Stainless Steel in High Speed Hot Rolling	Y. SAITO, T. SAKAI, K. TAKEDA and K. KATO... 1146
Statistical Analysis about Crack and Spalling on Work Roll for Hot Strip Mill Finishing Rear Stands.....	Y. SANO and K. KIMURA... 1154
Effect of Rolling in Low Temperature Austenite Region on Strength, Ductility and Toughness of Rail Steels	T. WADA and K. FUKUDA... 1162
Stress Relaxation and Hot Ductility of Steels in Intermittent Tensile Deformation at Temperatures from 700 to 1 300°C	Y. MAEHARA, H. TOMONO and Y. OHMORI... 1170
Low Cyclic Fatigue Behavior of 32%Mn Nonmagnetic Steel and the Effects of C and N in Liquid Nitrogen and Liquid Helium	K. SHIBATA and T. FUJITA... 1178
Hot-hardness and Indentation Creep Characteristics of Pure Metals	A. OKADA, Y. YAMAMOTO and R. YODA... 1186
Nucleation and Growth of Bubbles in Hydrogen Attack of 2.25Cr-1Mo Steel Determined by Hydrogen Permeation and Steel Density Measurements at Lower Temperatures	H. MIYAJI and H. NAKAJIMA... 1193
