

**Contents**

**Commentaries**

- Neural Network Models and Its Applications to Iron and Steel Making Processes  
..... Y. OTSUKA and M. KONISHI...1539
- Problems of Bainitic Transformation and Microstructures in Low Carbon Steels  
..... T. ARAKI, M. ENOMOTO and K. SHIBATA...1544

**Report of the Research Committee of ISIJ**

- Report of Domestic Marine Transportation Subcommittee "The Circumstances and Trends of  
Domestic Marine Transportation in Steel Industry" ..... M. YOSHIKAZAKI...1551

**Technical Papers and Technical Reports**

- Estimation of Void Fraction and Shape Factor in Moving Bed of Sinter and Coke  
..... M. ICHIDA, Y. ISOZAKI and K. TAMURA...1561
- Kinetics of Reduction Step of Wustite to Iron in Gaseous Reduction of Quaternary Calcium  
Ferrite ..... T. MAEDA and Y. ONO...1569
- Kinetics of Water Gas Shift Reaction with the Catalysts of Metallic Iron and Nickel  
..... F. SHEN, R. TAKAHASHI and J. YAGI...1577
- Simulation Model of the Gas-Liquid Flows in the Packed Bed ..... J. WANG, R. TAKAHASHI and J. YAGI...1585
- Mathematical Two-dimensional Model of the Blast Furnace Process  
..... M. KUWABARA, S. TAKANE, K. SEKIDO and I. MUCHI...1593
- Analysis of Oxygen Blast Furnace Process Based on a Mathematical Simulation Model  
..... H. YAMAOKA and Y. KAMEI...1601
- Maximum Injection Rate of Fine Ore through Tuyeres into Blast Furnace  
..... K. YAMAGUCHI, H. UENO, M. NAITO and K. TAMURA...1609
- Influence of Ore to Coke Ratio Distribution on Descending and Melting Behavior of Burden in  
the Blast Furnace..... M. ICHIDA, K. NISHIHARA, K. TAMURA, M. SUGATA and H. ONO...1617
- Reduction of Silicon in Hot Metal by Iron Ore and Flux Injection through Blast Furnace Tuyere  
..... K. TAKEDA, Y. SAWA, S. TAGUCHI, N. TAKASHIMA, T. MATSUMOTO and H. OBATA...1625
- Mechanism of Hanging Caused by Dust in a Shaft Furnace..... H. YAMAOKA...1633
- Experiment of Phosphorus and Oxygen Distribution between CaO-SiO<sub>2</sub>-MgO-Fe<sub>2</sub>O Slag and Liquid  
Steel and Estimation of Phosphorus Content at End Point of Top and Bottom Blowing Converter  
..... T. USUI, K. YAMADA, Y. KAWAI, S. INOUE, H. ISHIKAWA and Y. NIMURA...1641
- Characteristics of Electric Power and Heating of Molten Steel of AC Plasma Torch for Arc Heating  
of Molten Steel in Tundish..... H. FUJIMOTO, T. SAITO, M. SHIMIZU, N. KIYOKAWA, H. IRITANI and S. NISHI...1649
- Production of High Purity Silicon by Carbothermic Reduction of Silica Using AC-arc Furnace  
with Heated Shaft ..... Y. SAKAGUCHI, M. FUKAI, F. ARATANI, M. ISHIZAKI, T. KAWAHARA and M. YOSHIYAGAWA...1656
- Fluid Flow in Ladle and Its Effect on Decarburization Rate in RH Degasser  
..... Y. KATO, H. NAKATO, T. FUJII, S. OHMIYA and S. TAKATORI...1664
- Temperature Measurement during Rapid Solidification of 18Cr-8Ni Stainless Steel and Its Initial  
Solidification Structure ..... H. MIZUKAMI, T. SUZUKI and T. UMEDA...1672
- Forging Method for Consolidating Loose Structure in Steel Ingot with V Shaped Dies  
..... K. ISOBE, H. NOGUCHI and K. KATO...1680

|                                                                                                                                                                                      |                                                             |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Behavior of Under-film Corrosion on Zn and Zn-Fe Alloy Coating in Salt Spray Environment                                                                                             | K. HAYASHI, Y. ITÔ and Y. MIYOSHI...1688                    |
| Theoretical Investigation of Under-film Corrosion on Zn, Zn-Fe Alloy Coated Steel Sheets                                                                                             | K. HAYASHI, Y. ITÔ and Y. MIYOSHI...1695                    |
| Graphite Pollution Mechanism at the Surface of Steel Sheet on Annealing.....                                                                                                         | T. NAKAMURA and M. SATO...1702                              |
| Effect of Reduction of Cold Rolling on Secondary Recrystallization of Grain-oriented Electrical Steel Produced by Single-stage Cold Rolling Process.....                             | S. NAKASHIMA, K. TAKASHIMA and J. HARASE...1710             |
| Effect of Inhibitor on Secondary Recrystallization of Grain-oriented Electrical Steel Produced by Single-stage Cold Rolling Process .....                                            | S. NAKASHIMA, K. TAKASHIMA and J. HARASE...1717             |
| Influence of Solution Treatment under Unrecrystallized Austenite (Unrecrystallized Solution Treatment) on Strength and Toughness of 18%Ni Maraging Steel with Various Strength Level | T. YASUNO, K. KURIBAYASHI, R. HORIUCHI and M. OTSUKA...1725 |
| ISIJ Information Network .....                                                                                                                                                       | N 595                                                       |
| The Editor's Postscript .....                                                                                                                                                        | N 629                                                       |

鉄と鋼 定価 3,500 円 (消費税本会負担)

Tetsu-to-Hagane Price : ¥ 3,500.- (Free of seamail charge)

#### 編集委員会

委員長 佐野 信雄
