

Contents

Lecture	Theory and Application of Thermo-Magneto Hydro Dynamics(I) / T.TANAHASHI	N91
Commentary	The Present Status and a Trend of Can Manufacturing / K.IMAZU	N103
	Mechanical Properties of High Purity Iron and Effects of Solutes on Them / H.KIMURA	131
Paper	Scrapmelting Using a Shaft Type Furnace with Coke Packed Bed Injected with Highly Oxygen Enriched Air and a Large Quantity of Pulverized Coal / Y.KAMEI, T.MIYAZAKI and H.YAMAOKA	139
	Compatibility Relation of the System $ZrO_2+BaO+P_2O_5$ and the Electrical Conductivities of $ZrO_2+14.55mol\%BaO+3mol\%P_2O_5$ Solid Electrolyte / M.IWASE and H.KITAGUCHI	147
	Three Dimensional Analysis of Magnetic Field around a Cold Crucible System by Using the Boundary Element Method / K.IWAI, K.SASSA and S.ASAI	152
	Numerical Analysis of Molten Steel Flow in a Continuous Casting Mold by Use of Large Eddy Simulation / I.SAWADA, Y.KISHIDA, K.OKAZAWA and H.TANAKA	160
	Heat Transfer between Mold and Slab Through Mold Flux Film in Continuous Casting of Steel / A.YAMAUCHI, K.SORIMACHI, T.SAKURAYA and T.FUJII	167
	Determination of Mg, Cu, Zn, Ag, and Pb in Pure Iron by Isotope Dilution Analysis/Inductively Coupled Plasma Mass Spectrometry / I.INAMOTO and K.CHIBA	175
	Determination of Aluminum Concentration in Molten Zinc by the E.M.F.Method Using Zirconia Solid Electrolyte / S.MATSUBARA, K.NAKAMOTO, Y.HIROSE, I.KATAYAMA and T.IIDA	180
	Influence of Hot Rolled Steel Surface Condition on Galvanizing Reaction / K.NISHIMURA, H.ODASHIMA, K.KISHIDA and M.ODA	187
	Precipitation Control of Cold Rolled Mild Steel Sheets in Thin Slab-Direct Hot Rolling Processes / T.SENUMA, S.SANAGI, K.KAWASAKI, S.AKAMATSU, T.HAYASHIDA and O.AKISUE	194
	Effects of Carbon and Manganese on the Recrystallization Texture of Cold-rolled Steel Sheet / I.TSUKATANI, T.INOUE and M.SUDO	201
	Effect of the Condition of Short Time Continuous Quenching and Tempering Heat-Treatment on Improving the Toughness of the Web and Base of Rail / K.FUKUDA, T.WADA, I.NAKAUCHI and M.UEDA	212
	An Improved Evaluation of Creep Rupture Life by Stress Rupture Map Zoning / K.MARUYAMA	219
	Estimation of Delayed Fracture Property of Steels / N.SUZUKI, N.ISHII, T.MIYAGAWA and H.HARADA	227
Research Note	Effect of Retained Austenite on Deep Drawability in 1000MPa Grade High Strength Steel sheets / O.MATSUMURA, T.OHUE and T.AMAIKE	209
