|                          |   |      |
|--------------------------|---|------|
| Lecture                  | Introduction to Solidification of Metals (II) / K. GUNJI .....  | N266 |
| Commentary               | MF Process for EAF Dust Treatment / Y. MURAYAMA .....   | N281 |
|                          | Plasma Spraying for Production Process of Advanced Energy Devices / A. NOTOMI .....   | N285 |
|                          | Kinetic Analysis on Gaseous Reduction of Agglomerates, Part 1, Reaction Models for Gaseous Reduction of Agglomerates / T. USUI, M. NAITO, T. MURAYAMA and Z. MORITA .....   | 431  |
|                          | New Smelting Processes and Refractories / T. TAKAHASHI .....  | 440  |
|                          | Metallurgy on Galvannealing / M. ONISHI, Y. WAKAMATSU and T. SHIMOZAKI .....  | 446  |
| Paper                    | Reduction Equilibria of Ternary Calcium Ferrite with CO-CO <sub>2</sub> Gas Mixture / T. MAEDA and Y. ONO .....   | 451  |
|                          | The Development of the Direct Measurement Technology of the Cohesive Zone and the Structure of the Root of the Cohesive Zone during the Operation of the Large Blast Furnace<br>T. ASHIMURA, N. MORISHITA, Y. INOUE, M. HIGUCHI, M. BABA, K. KANAMORI and S. WAKURI ..... | 457  |
|                          | Determination of Thermal Diffusivities of Continuous Casting Powders for Steel by Precisely Excluding the Contribution of Radiative Component at High Temperature<br>H. OHTA, M. MASUDA, K. WATANABE, K. NAKAJIMA, H. SHIBATA and Y. WASEDA .....                         | 463  |
|                          | Cutting Force of Low Alloy Steels in the Cutting Speed Range in which a Built-up Edge Forms<br>S. YAMAMOTO, H. NAKAJIMA and H. MIYAJI .....   | 469  |
|                          | Environmental Effect of Crude Oil Containing Hydrogen Sulfide on Fatigue Properties of Steel<br>Plates for Shipbuilding / H. OUCHI, J. KOBAYASHI, T. ISHIKAWA, H. TAKEZAWA, R. EBARA and Y. YAMADA .....  | 475  |
|                          | Influence of Ni and Mn on Toughness of Multi-Pass Weld Heat Affected Zone in Quenched and Tempered High Strength Steels / T. HASEGAWA, T. HAZE, S. AIHARA and K. OKAMOTO .....  | 481  |
|                          | Calculation of constitution of Nickel Base Superalloys by Cluster Variation Method<br>M. ENOMOTO, H. HARADA and H. MURAKAMI .....   | 487  |
| Technical Article        |   | T93  |
| ISIJ Information Network |   | N261 |
