Special Issue on “Coating Microstructure and Properties of Galvannealed Steel Sheets”

Preface to the Special Issue “Coating Microstructure and Properties of Galvannealed Steel Sheets” <i>M. YAMAGUCHI</i>	305
Plastic Deformation of Galvannealed Coating in Compressive Stress <i>K. MUNEKANE, Y. NUNOMURA and T. TAKASUGI</i>	306
Debonding Behavior in Galvannealed Coating Steel Sheet <i>T. MASUDA, L. WANG, T. KOBAYASHI and H. UMEHARA</i>	313
Fracture and Peeling Behavior of Fe–Zn Intermetallic Coating of Galvannealed Steel Sheet <i>S. OCHIAI, T. TOMIDA, T. NAKAMURA, S. IWAMOTO, H. OKUDA, M. TANAKA and M. HOJO</i>	320
Residual Stress Analysis and Estimation of Strength of Fe–Zn Coating Layer of Galvannealed Steel by Means of Finite Element Method <i>S. OCHIAI, S. IWAMOTO, T. TOMIDA, T. NAKAMURA, H. OKUDA, M. TANAKA and M. HOJO</i>	327
Stress Analysis and Prediction of Multiple Cracking of Coating Layer of Galvannealed Steel under Applied Tensile Strain/S. IWAMOTO, S. OCHIAI, T. NAKAMURA and H. OKUDA	335
Relation between Cracking of Intermetallic Coating Layer of Galvannealed Steel Sheet and Grain Boundary of Substrate Steel/T. NAKAMURA, S. OCHIAI, S. IWAMOTO, D. ADACHI and H. OKUDA	342
Microstructural Evolution of Intermetallic Compound Layers Formed in Fe/Zn Binary Diffusion Couples <i>R. KAINUMA and K. ISHIDA</i>	349
Effect of the Substrate Properties on the Surface Quality of Galvannealed Steel Sheets <i>M.-H. HONG</i>	356
ISIJ International, Vol.45 (2005), No.3, Synopses and Titles	A8
