

“Tetsu-to-Hagané”

Vol.94 No.1 January, 2008

Contents

Welding and Joining

In-situ Observation of Weld Solidification and Transformation Using Synchrotron Radiation

Y. KOMIZO and H. TERASAKI1

Surface Treatment and Corrosion

Microbiologically Influenced Corrosion Behavior in Stainless Steels for Public Sewage Treatment

Plants

M. MATSUSHIMA and Y. TOMOTA6

Transformations and Microstructures

Crack Initiation Behavior from Internal Defect in High Carbon-chromium Bearing Steel under

Rolling Contact Fatigue

T. FUJIMATSU, K. HIRAKA and A. YAMAMOTO13

Simulation of TiC Precipitation in Ti-added Low Carbon Steel

A. SAWAHATA, M. ENOMOTO, K. OKUDA and T. YAMASHITA21

Mechanical Properties

Fabrication and Mechanical Properties of Lotus-type Porous Carbon Steel by Unidirectional

Solidification in Nitrogen Atmosphere

M. KASHIHARA, H. YONETANI, T. KOBI, S.-K. HYUN, S. SUZUKI and H. NAKAJIMA30

ISIJ International, Vol.48 (2008), No.1, Synopses and TitlesA1
