

“Tetsu-to-Hagané”

Vol.94 No.2 February, 2008

Contents

Ironmaking

Utilization of High VM Coal in the Reduction of Carbon Composite Iron Ore Agglomerates

H. TANAKA and T. HARADA35

Instrumentation, Control and System Engineering

Construction of Business Support System for Supply Chain Management at Re-roll Maker (Technical Report)

N. YABUTA, T. HADA, N. KIMURA and Y. TSUGE66

Surface Treatment and Corrosion

Investigation of Partial Pressure Distribution of Undecomposed NH_3 in Carbonitriding Atmosphere

C. OHKI42

Mechanical Properties

Changes of Dislocation Structure and Magnetic Properties in Tensile and Fatigue Deformed Low Alloy Steel

K. YABEGASHI51

Mechanical Properties Controlling Ductile Crack Growth of Structural Steel

—Simulation of Ductile Crack Growth—

M. OHATA, T. FUKAHORI and F. MINAMI57

ISIJ International, Vol.48 (2008), No.2, Synopses and TitlesA4
